The band formed February of 2013. There are eight core members with great individual scales in music appearing on a regular basis. Why ESCALA? It is a Spanish word for Scale. In music it is a series of notes differing in pitch according to a specific scheme.

We like the idea that even if you have different views in life as individuals when you stay firm together you create wonderful music. No airs and graces - we're all about listening to each other and simply playing the music that we love with skill and passion and commitment, but most of all a huge sense of fun.

Description

ESCALA is a variety band based in the Philippines fronted by the hunk Arvhin, the gorgeous Kais, the energetic Hany and the adorable BJ. Together with the tight tandem of the funky Bernard on bass, the groovy Red on drums, the burning guitar lines of El and the melodic orchestrations of Warren on keys.

ESCALA offers you a cocktail of music from the famous hits of yesteryears up to the current Top-40 hits. Arvhin takes the RnB authority while Kais rocks her voice, BJ jazzes her heart out, Hany sings the Soul and the rhythm section fills what's needed to complete your whole music experience.

Have a taste of our music, feel the experience... Enjoy the ESCALA Band!!!
