## SINGER

Combine natural talent & beauty with determination & intellect and the product will be the sweet fiery yet humble compassionate, Emilie Durand is known as Emy !!

Though her entertaining abilities were apparent from early childhood, the Canadian born songstress achieved formal training in several art forms to develop her gifts with proficiency. She studied vocals at the College of Lionel-Groulx and is also a skilled animator. Emilie's diligent spirit drove her to acquire formal vocal training as well as dance training to enhance her chances at attaining her destiny and dreams to perform and entertain.

All of her preparatory grounding began to pay off as she was recruited by several top 40 bands where she performed tumultuous schedules of six nights a week traveling to the United States and Middle-East. These experiences set her career in motion. Her professionalism and business-minded background was strengthened through interactions with these various bands, management and venues. She has performed for hundreds of audiences all over the world and has apparently only just begun scratching the surface of her potential.

Emilie is now back in Montreal performing with **OverNite** as a powerful lead vocalist. As many have already been fortunate enough to encounter her have realized; her beauty is only matched by the splendour of her character.

## SINGER

## GUITAR PLAYER

Using his precious Stratocaster, this well-dressed good looking guy performs a large repertoire of hits, classics or simply good music. He joined Overnight Sensation in 2012, a seven-piece band, they played in Asia and Middle-east in the last two years.

Born in 1984, Canada, he was a teenager he discovered some old LP and started learning guitar, of course. After strict studies he received his college music diploma in 2006, for rocking the classical guitar. He recorded his academic work in professional studio to show the world his talent and motivation. Concertos and preludes are nice but what about playing today's songs with amplified six-strings? He played in multiple bands on Quebec's local scene, he drove 200 miles to play in front of 12 people many times, released a self-produced heavy EP with friends and travelled across Canada to find his way into music.

He's now enjoying to be part of a great cover band with which he can perform good music, exchange and grow as a musician.

His favorite rock moves are the power-slide and the magic flip-over but one requires a proper stage and the other one is dangerous for the other members of the band so he keeps it down.

If some songs could be considered main stream.

Be on the lookout for  
a band of passion and delight.
