

UNITY

From Montreal, Canada, Unity is taking the world by storm!
Unity is an awesome reunion of seven professional artists showing remarkable talent, experience and maturity gained through playing clubs, hotels & casinos, all around the globe, for many years.

Three energetic and charismatic singers, supported by four skilled and gifted musicians, will take a crowd on a musical journey performing the biggest hit songs of the last four decades. Seven cool cats with high motivation and unconditional will to entertain crowds young and old, while keeping the quality standards up and high.

From a powerful and heartfelt ballad to the very latest Top-40 hit songs, their thorough yet unmistakably original renditions of everyone's favourite Pop, Rock, Dance, Caribbean and R&B songs will keep party-goers singing along, clapping and dancing, all night long, and leave them begging for more.

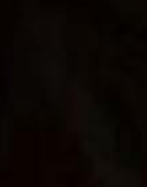

Unity is all about the team utilizing each member's strength and ability to fulfill the highest standard of both the international crowd and hotel management. Through their rigorous work ethic and professional attitude, each and everyone within Unity collects superlative reviews. They gather praises from regular guests as well as warm cheerful reactions from new comers.

They are sexy, energetic, they love to party and meet new people and they know how to make everyone feel welcome and comfortable.

They go all out to please and create strong ties with everyone.

They are pure dynamite.

They are Unity.
